

Salisbury Plain Green Laning Good Practice Guide

Salisbury Plain Green Laning Good Practice Guide

The Defence Infrastructure Organisation (DIO), which is responsible for MOD's land and property, worked with a range of partner organisations to produce the Salisbury Plain Greenlaning Good Practice Guide to educate motorists on how to use Salisbury Plain effectively and sustainably for off-road driving.

The new guide is supported by greenlaning organisations, including the Green Lane Association, Tread Lightly and the Trail Riders Fellowship. It has also been fully endorsed by Wiltshire Council and the Wiltshire and Swindon Countryside Access Forum.
