

Waymarking in Carmarthenshire

Sunshine brings out the volunteers!

Weds 22nd April 2015 , three teams Waymarking in Carmarthenshire.

Volunteers from GLASS and TRF worked with representatives from BBNP, Carmarthenshire Council and the local farmer, to erect 15 Waymarking posts.

The group split into three teams and enjoyed the spring sunshine. With recent lessons learned from the rambles an auger was used and it made the job so much easier when working in soil.

With Ground Nesting birds in the area, short posts were used to stop raptors using normal height posts for spotting their prey!

Our thanks to Llanerchindda Farm for organising the day. info@CambrianWay.com
